

**5G is a Human Experiment  
It has never been safety tested**

**Would You Microwave Your Family?**

**Thousands of research studies show the negative effects of wireless radiation on humans, animals and the environment.**

**Safety, security, property values, local authority, pollinators - all suffer with 5G**

**We respectfully demand a moratorium on 5G until it can be proven safe.**

**We do not consent to being irradiated 24/7 without escape!**
